

ETF Balanced

50% Equity Allocation Portfolio

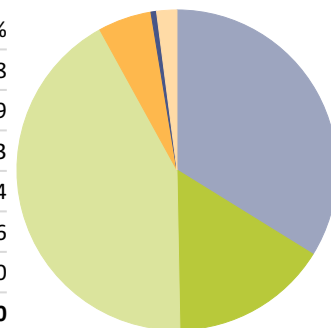

Investment Strategy

Tru's Exchange Traded Fund (ETF) portfolios are long term oriented, multi-asset portfolios that invest in a diversified blend of low cost passive and strategic beta ETF's. The Balanced portfolio splits its investments evenly between stock and bond funds. The portfolio provides some current income and some capital appreciation. The bond holdings help provide protection against capital loss, while its equity holdings provide the opportunity for capital appreciation through stock price growth. Investors in this portfolio are often close to retirement or are saving for a financial goal that is 4 to 6 years away.
